Response to SFCWA Information Request

October 8, 2010

The following is in response to an information request by the State & Federal Contractors Water Agency (SFCWA) pursuant to their status as a Cooperating Agency for the BDCP EIR/EIS:

The Cooperating Agency MOUs outline the responsibilities of the Cooperating Agency pursuant to NEPA relative to providing review of the Administrative Draft EIR/EIS. The MOUs indicate that the Cooperating Agency will provide review of individual chapters or portions of the document following consolidation of review comments by the Lead Agencies, and as requested by the Lead Agencies. With this in mind, the following provides a status update of the Draft EIR/EIS deliverables requested by the SFCWA:

- a) EIR/S Table of Contents - Most recent version (July 2010) is attached.
- b) Introduction Chapter - Most recent product from the consultants is an annotated outline dated October 2009. Full text has not been provided to the Lead Agencies for review and comment.
- c) Project Description write-up - Text has not been provided to the Lead Agencies for review and comment.
- d) Alternatives Screening Criteria - Will be provided as part of the BECT meeting materials information package currently being distributed to entities that have recently signed a Cooperating Agency MOU (i.e., SFCWA and Contra Costa County).
- e) Text on the Alternatives - Most recent product from the consultants is an outline dated September 2010. Full text has not been provided to the Lead Agencies for review and comment.
- f) Annotated table of contents indicating what sections have been drafted or analysis has been completed - Generally, the Environmental Setting/Affected Environment sections and some of the methodology sections for the resource areas have been drafted and commented on by the Lead Agencies. The consultants are currently working on consolidating the Lead Agencies comments. No environmental consequences sections have been forwarded to the Lead Agencies for review and

comment. The initial drafts of Chapters 1-4 have been prepared by the consultants, but have not been provided to the Lead Agencies for review and comment.
